NEW YORK

BOATS AND HOUSES

2nd COPY DELIVERED TO THE
SEP 15 1898
Library of Congress.

THESE little books, while affording an attractive pastime to children, will also be found very instructive. The tracing of the pictures gives a training to hand and eye which makes it an easy and natural step forward to copy without tracing. Thus the young artists, while amusing themselves, are acquiring with little effort the ability to draw the things they see about them.
